

MRS Bulletin

Editorial Calendar

To serve both its audience and its advertisers, *MRS Bulletin* focuses each issue on a specific technical theme. Use this calendar to determine which issues will provide maximum exposure for your marketing dollars.

In addition, the MRS OnDemand Webinar Series offers free, live webinars throughout the year, providing valuable educational information on timely, interdisciplinary topics. Sponsor one of these webinars for only \$1000 and put your name in front of the materials science community. Learn more at mrs.org/advertising-webinar-series.

2020

JANUARY

Materials for Hot-Carrier Chemistry

Guest Editors: Yugang Sun, Temple University and Zhiyong Tang, National Center for Nanoscience and Technology

Space & Materials Deadline: December 6, 2019

FEBRUARY

Transient Electronic Devices

Guest Editors: Seung-Kyun Kang, Seoul National University, Lan Yin, Tsinghua University and Chris Bettinger, Carnegie Mellon University

Space & Materials Deadline: January 8, 2020

MARCH ENERGY QUARTERLY

Metasurfaces for Flat Optics

Guest Editors: Junsuk Rho, Pohang University of Science and Technology and Nangang Yu, Columbia University

Bonus Distribution: 2020 MRS Spring Meeting & Exhibit

Space & Materials Deadline: February 7, 2020

APRIL

Nanoscale Tomography Using X-rays and Electrons

Guest Editors: Huolin Xin, University of California, Irvine, Hanfei Yan, Brookhaven National Laboratory and Peter Voorhees, Northwestern University

Bonus Distribution: 2020 E-MRS Spring Meeting

Space & Materials Deadline: March 6, 2020

MAY

Emergent Quantum Materials

Guest Editors: Linyou Cao, North Carolina State University, Jeanie Lau, The Ohio State University and Fengnian Xia, Yale University

Space & Materials Deadline: April 7, 2020

JUNE ENERGY QUARTERLY

Halide Perovskite Opto- and Nanoelectronics

Guest Editors: Sang Il Seok, Ulsan National Institute of Science and Technology and Tzung-Fang Guo, National Cheng Kung University

Space & Materials Deadline: May 7, 2020

JULY

Organic and Hybrid Neuromorphic Materials and Devices

Guest Editors: Alberto Salleo, Stanford University and George Malliaras, University of Cambridge

Space & Materials Deadline: June 5, 2020

AUGUST

Nanomaterials for Electrochemical Water Splitting

Guest Editors: Johnny C. Ho, City University of Hong Kong and Yanguang Li, Soochow University

Bonus Distribution:

Frontiers in Optics | 104th OSA Annual Meeting and Exhibit AVS 67th International Symposium & Exhibition

Space & Materials Deadline: July 8, 2020

SEPTEMBER ENERGY QUARTERLY

Liquid Phase/Cell Electron Microscopy

Guest Editors: Haimei Zheng, Lawrence Berkeley National Laboratory, Utkur Mirsaidov, National University of Singapore and Neils De Jong, Saarland University

Bonus Distribution: AVS 67th International Symposium & Exhibition

Space & Materials Deadline: August 7, 2020

OCTOBER

Functional Materials and Devices Via Self-Assembly

Guest Editors: Dmitri Talapin, The University of Chicago and Paul Braun, University of Illinois at Urbana-Champaign

Bonus Distribution: 2020 MRS Fall Meeting & Exhibit

Space & Materials Deadline: September 8, 2020

NOVEMBER (tentative)

Materials Synthesis Far from Equilibrium

Guest Editors: Ashwin J. Shahani, University of Michigan and Amy Clarke, Colorado School of Mines

Bonus Distribution: 2020 MRS Fall Meeting & Exhibit

Space & Materials Deadline: October 7, 2020

DECEMBER (tentative) ENERGY QUARTERLY

Synthetic Biology

Guest Editors: Maneesh Gupta, Air Force Research Laboratory and Mike Jewett, Northwestern University

Space & Materials Deadline: November 6, 2020
