The ease of the Phoenix travel experience begins at Sky Harbor International Airport, one of the most accessible and affordable major airports in the United States. According to the U.S. Bureau of Transportation, over the past five years Phoenix has enjoyed the lowest domestic airfares among the nation’s top 10 fly-in destinations.

Fun fact: Thanks to the 2013 debut of the PHX Sky Train® people mover which arcs high above one of the airport’s taxiways, Sky Harbor is also the only place in the world where you can ride a mass-transit train over an airplane.

ONCE YOU’VE LANDED

Sky Harbor is only 3 miles from the city center and 15-30 minutes from most hotels and resorts. The typical cab fare from the airport to downtown is $20, and a one-way ticket aboard light rail is a mere $2.

PHX Sky Train®
The PHX Sky Train® is an automated train that transports travelers between the airport’s busiest terminals and the city’s nearest light-rail station. The PHX Sky Train® is free and operates 24 hours a day, arriving at stations every three minutes. It takes the PHX Sky Train® about five minutes to travel from Terminal 4 to the METRO light rail station at 44th Street and Washington. From there it’s a 15-minute, $2 ride to downtown aboard light rail.

Light Rail
With 28 stops and a train every ten minutes, the METRO light rail moves the masses in a hurry. The system provides access to museums, shops, dining and attractions downtown and nearby communities of Mesa and Tempe. This is a safe, cost-effective and “green” option to connect visitors and meeting attendees to all there is to experience in Downtown Phoenix. A one-way pass costs $2 or an all-day pass is $4, which can be purchased at the ticket vending machines at each station.

Taxis
Compared to other major metropolitan areas, Greater Phoenix has some of the most affordable taxi services in the nation. The average fare from the airport to downtown costs $20.
